TIRED OF THE PAIN AND ANGUISH OF ORAL or GENITAL HERPES OUTBREAKS?

You can feel it coming on? That tingling sensation or hot feeling that tells you a Herpes blister is about to erupt. There is nothing you can do to stop it, and you know it's contagious, which just adds to your stress level. The same questions keep running through your mind every time it happens: "How long will this outbreak last? When will I get another one? Is there any way to get rid of this quickly?"

FINALLY! SAFE, Homeopathic Relief IS HERE!

Scientists are still searching for a herpes cure, but now you can get natural homeopathic relief from the painful symptoms of herpes eruptions with Herpeset™, a very special homeopathic blend of 9 ingredients, each known in the homeopathic community to safely reduce the discomfort caused by symptoms of Herpes Simplex Virus, such as:

HOW IS HERPESET™ DIFFERENT?

A liquid oral spray, Herpeset™ is absorbed quickly into the blood vessels under the tongue, bypassing the digestive tract, which can slow the absorption of orally administered products. Our sublingual application is designed to speed delivery of ingredients to combat your symptoms so you can feel better quickly, and resume your normal activities sooner.

Herpeset™'s unique blend of homeopathic ingredients is designed to attack multiple symptoms, and can be safely used with other medications with no drowsiness or adverse side effects. Just spray under the tongue up to 3 times a day for safe, effective relief!*

A SYNERGISTIC, HOMEOPATHIC BLEND

Homeopathic doctors have been using the separate ingredients in Herpeset™ to treat single symptoms of oral and genital herpes for decades, but our experts in homeopathy have chosen a blend of these natural ingredients to help relieve a wider variety of symptoms in one, easy-to-use spray application. Here are a few samples of the symptoms that each ingredient is recognized by authoritative homeopathic texts to help relieve [see Ingredients page for full listing](#):

- ✓ **Rhus tox:** Reduces itching/inflammation associated with blisters and itchy skin eruptions
- ✓ **Apis Mellifica:** Relieves burning, stinging pain and swelling
- ✓ **Baptista (Wild Indigo):** Reduces mouth ulcers
- ✓ **Capsicum (Cayenne Pepper):** Pain killer
- ✓ **Nitricum Acidum (Nitric Acid):** Helps heal cracking and bleeding & arrests spreading
- ✓ **Pyrogenium:** speeds healing of abscesses

IMPORTANT INFORMATION FOR THOSE WITH HERPES ESPECIALLY PREGNANT WOMEN

There is no known cure for genital herpes. This product will not stop the transmission of the herpes virus from one person to another. Thus, you should take every precaution to inform your sexual partner that you have the herpes virus and practice safe sex. Women who are pregnant or lactating should consult their physician regarding the risk to their unborn child when the active Herpes virus is present as Herpeset™ cannot stop the transmission of the disease to the unborn child or a nursing child.

STRESS: A MAJOR FACTOR

Once a person becomes infected, Herpes Simplex Virus lies dormant in the body, waiting for just the right conditions to become active again. There can be many triggers which activate the virus, such as eating arginine-rich foods (like chocolate, cola, beer, seeds and nuts); the onset of a cold or fever; sunburn; the menses cycle & any physical or emotional event that introduces stress to the body. Each person's triggers are different, but all herpes sufferers have one thing in common--worrying about the next outbreak adds even more stress, which just feeds the vicious cycle and makes it worse!

NOW GET THE NATURAL RELIEF YOU'VE BEEN LOOKING FOR, BUT ACT EARLY!

Our unique combination of time-tested homeopathic ingredients in Herpeset™ is designed to reduce the severity of an outbreak and help your body heal itself*. So what are you waiting for?

You'll want to have plenty of HERPESET™ on hand so you can start to Clobber Painful Herpes Outbreaks Easier and Safer than ever before!

GRAB OUR BEST VALUE TODAY and SAVE!

Herpeset Ingredients

Homeopathic Herpeset Herpes Simplex Formula Ingredients

The science of homeopathy is over 200 hundred years old, and is based on the premise that certain natural substances can stimulate the body's own healing systems - allowing the body to heal itself. Homeopathy is a very unique system of medicine because the non-toxic, with no negative side effects. The use of homeopathic ingredients for particular conditions are based on "homeopathic provings" that are recorded in the Homeopathic Materia Medica. A discussion of the homeopathic conditions of use for the ingredients found in Herpeset is found below:

Each ingredient in Herpeset was picked by expert formulators in the field of homeopathy. Herpeset is 100% natural, safe, and has no known drug interactions. Every ingredient was chosen for this unique formula to both alleviate discomfort and help relieve multiple symptoms associated with herpes simplex viral outbreaks. Our sublingual delivery system is the preferred method of delivering homeopathic medicines.

Other reasons to use Herpeset:

- ✓ **No Animal Testing**
- ✓ **Money Back Guarantee!**
- ✓ **Non-Drowsy, with No Drug Interactions.**
- ✓ **Safe for the elderly and high risk patients.**
- ✓ **Safe for use with prescription medication, dietary supplements and herbs.**
- ✓ **100% Natural - no artificial additives or preservatives**

Suggested Use: Adults and children over 12: Spray twice under tongue up to three times a day. Children under 12: consult a doctor before use.

Homeopathic Active Ingredients:

Apis mellifica 3X:

Formulated from honeybees, Apis mellifica relieves burning, stinging pain and fluid retention, and has been used in homeopathy since its discovery as a remedy in 1835, by Rev. Brauns, in Thuringia, Germany.

Arsenicum Album (Metallic Arsenic) 200C:

During the seventeenth century, Arsenic was used on humans to topically treat malignant ulcers, tumors and skin diseases, and internally to treat fevers.

Today it is one of the most frequently used and well-proven homeopathic remedies, not only for herpes simplex, but also to treat other skin infections, boils, burns with blisters, asthma & even anxiety disorders.

Baptista Tinctoria (Wild Indigo) 3X:

Effective against the inflammation of mouth ulcers, particularly when combined with Echinacea. It is also used in homeopathy to ease fever and headache, and upper respiratory tract infections.

Capsicum (Cayenne Pepper) 6X:

A genus of plants from the nightshade family, Capsicum has been cultivated in the Americas for centuries as a food source and for medicinal use. Listed on the FDA's GRAS List of Safe Foods, Capsicum is a powerful pain killer. And reduces inflammation. It has been used to treat a variety of conditions, including digestive disorders and arthritis.

Dulcamara (Woody Nightshade) 30X:

Also called "Bittersweet", Dulcamara is a woody shrub found in hedgerows and along the edge of wooded areas across America and England. Once prescribed in the late 1850s as a diuretic, and as far back as the thirteenth century for rheumatism, all types of inflammations and as a good general tonic, Dulcamara is effective against intense itching on moist eruptions around the face and genitals.

Echinacea Augustifolia (Purple Cone Flower) 3X:

Native to eastern and central Northern America, Echinacea's purple, daisy-like flowers are a staple in many

perennial gardens today. The Plains Indians used its rhizomes for various purposes. It eases stinging and redness of eruptions on the skin.

Nitricum Acidum (Nitric Acid) 200X:

Treats cracking and bleeding sores along mucous membranes. Used to dry up oozing sores and to arrest spread of lesions. Also helps with burning, stinging, itching and pain.

Pyrogenium 200C:

A mixture of sepsin and glycerine, Pyrogenium speeds healing of abscesses, ulcers, and other outward manifestations of blood poisoning. Also used to combat fevers from septic onset.

Rhus Toxicodendron (Poison Oak) 200C:

Also known as mercury vine or poison vine, poison oak and its kissing cousin, poison ivy, can be found all over North America in woodland areas. A main constituent of the plant is toxicodendric acid. The oil is poisonous when it comes in contact with the skin, causing an itchy red rash that forms blisters.

The medicinal use of poison ivy was discovered by accident. A French physician in the late eighteenth century discovered that a patient's chronic rash had been cured as a result of accidental exposure to the plant. The doctor then went on to use the leaves and stalk of the plant in the treatment of skin disease, paralysis and rheumatic complaints.

Today Rhus Tox is prized for its anti-inflammatory and antihistamine properties, and is used to reduce itching of the very conditions it causes in the wild poison ivy and poison oak blisters. It is also effective against hives, shingles rashes and all types of itchy eruptions.

Inactive Ingredients:

Organic alcohol 20% v/v:

The ingredients in Herpeset? are preserved with organic corn alcohol to insure against the possibility of ingesting herbicides, pesticides or genetically modified organisms. It also eliminates any potential allergic responses to wheat.

Warnings

- ***Do not use** if the tamper evident seal is broken or missing.
