Bring in this flyer and

Buy One Ice Cream Cone, Get One Free (offer expires August 31st)

FUZZ FACTS:

*Peaches originated in China about 3,000 years ago
According to USDA, one peach provides 11% of the daily requirement of Vitamin A, and 19% of Vitamin C
State flower of Delaware
The Peach is a member of the Rose family
White-fleshed peaches are generally less acidic than Yellow-Fleshed varieties
Sweet fragrance and a slight give in texture are the best indicators of ripeness
Peaches DON'T gain sugar after they are picked
Keep cold until ready to use*

MILBURN peaches are left on the tree as long as possible for maximum sugar retention and BEST FLAVOR. Keep plenty of paper towels on hand when eating our peaches...they're CHIN DRIBBLERS!
