

To the Woman Who Wants Brighter, More Even-Looking Skin Tone Naturally

Want a soothing, natural solution that reduces of the appearance of age spots, dull, blotchy skin, or discolorations?

Revitol™ Skin Brightener Cream is your safe, herbal-based solution for a beautiful, glowing complexion

Your skin is your largest organ—responsible for protecting your body from a variety of outside forces—but it is also the most visible part of you, and is susceptible to environmental, physical and hormonal conditions which can make your skin tone appear blotchy and uneven.

You may want to use non-toxic, natural products on your skin to keep it healthy and vibrant—but there are lots of choices out there—how can you be sure which one is best for your skin?

Revitol™ Skin Brightener Cream uses safe, plant-based ingredients to help reduce the appearance of freckles, liver-spots, and uneven pigmentation areas while keeping your skin soft and supple with natural emollients, moisturizers and skin-nourishing vitamins. It's a great way to lighten and brighten the appearance of those trouble spots safely with nature's finest ingredients. ([Read more about our Quality Control and Manufacturing Standards](#))

Contains no mercury or other harmful ingredients

The active ingredients in Revitol™ Skin Brightener Cream lighten the appearance of skin and promote a healthy, balanced-looking complexion. We use natural ingredients such as:

- **Arbutin:** Extracted from the bearberry plant, and also found in wheat and pear skins, Arbutin helps reduce the appearance of dark areas.

- **Lumiskin®:** Also known as Diacetyl Boldine, inhibits Tyrosinase to help lighten the appearance of the skin and promote more even-looking skin tone.
- **Shea Butter:** Derived from the nut of the Karite Nut tree (mangifolia), Shea butter has been used by African women for centuries for both cooking and for its healing properties in skin care. It contains natural sun protectants and emollients, and is used in many moisturizers, soaps and skin creams to firm and tighten skin.
- **Evening Primrose Oil:** Used as a food and natural medicine throughout history, Primrose is effective in skin care to help alleviate dry skin.
- **Allantoin:** A botanical extract of the comfrey plant, Allantoin is a natural-identical, non-toxic moisturizer that promotes the health of the outer dermal layer.
- **Grapefruit Seed Extract:** Used as a preservative, this extract is a natural antioxidant.
- **Vitamins A, C and E:** Because it has a fundamental role in the control of normal skin cell activity, Vitamin A is very important to healthy skin, and adding the antioxidant vitamins C and E gives this important skin nutrient extra support (for a complete list of ingredients, view our [ingredients](#) page).

Read what these health-conscious customers are saying about Revitol™ Skin Brightener Cream:

"I tried to lighten [the appearance of] my skin before, but the product I used gave me a horrible rash. I didn't think I'd ever try again. I found out that Revitol Skin Brightener has Arbutin and lots of other great ingredients, so I figured this time I'd be safe, and I was. Plus my skin is lighter and so pretty and healthy-looking! I never looked this good before!"*

H.M., New York, NY

"I wanted a fairer-looking complexion, but I try to take good care of myself and just use what's natural. When I saw that Revitol Skin Brightener has Arbutin, which is a natural ingredient, I figured it was time to go for it. I'm so glad I did! I got just what I wanted, with absolutely beautiful skin!" *

B.V., Little Rock, AR

"I always wanted lighter, healthier-looking skin, but I was afraid to do anything about it because I heard that a lot of products have ingredients that can make your skin worse than before. When I saw that Revitol Skin Brightener uses natural ingredients, I decided to take a chance. Now, after just a few weeks, my skin appears lighter, and it looks wonderful!" *

T.J., Los Angeles, CA

*Results will vary

You, too, can have beautiful results safely and naturally—in just a few weeks!

Many of our customers tell us that they begin to see results from using Revitol™ Skin Brightener Cream in less than a month! Even if you live in an area with harsh weather conditions, our soothing formula can start working right away to give you smoother, more even looking skin tone.

 Made in the USA

Revitol™ Skin Brightener Cream Ingredients:

Active Ingredients

- [Arbutin](#) lightens the appearance of skin
- [Allantoin](#) promotes overall skin health
- [Shea Butter](#) moisturizes and protects
- [Lumiskin®](#) reduces the appearance of uneven skin pigmentation
- [Squalene](#) fights free radicals
- [Evening Primrose Oil](#) moisturizes and promotes skin health
- [Vitamins A, C and E](#) support natural skin health
- [Grapefruit Seed Extract](#) contains antioxidants
- [Z Whitener](#) works hand-in-hand with Arbutin to lighten the appearance of skin

Arbutin is made from the bearberry plant (or mountain cranberry). Arbutin lightens the appearance of skin naturally, and can also be found in wheat and pear skins.

Allantoin is synthesized from the root of the herb Comfrey (also known as Knitbone), which has long been used in herbal medicine. Allantoin promotes healthy appearance of the upper dermal layer, and also removes dead skin cells from the surface of the skin. It is used for its moisturizing properties as well.

Shea Butter is a natural fat derived from the nut of the Karite tree of West Africa, where it is commonly used in soap for its moisturizing properties. Shea Butter is a wonderful emollient that deep moisturizes dry, chapped skin.

Lumiskin® is a Tyrosinase inhibitor naturally derived from Chilean tree bark that helps the skin appear lighter and promotes the appearance of more even skin tone.

Squalene is widely distributed in nature, and is a natural antioxidant concentrated in the skin and retina. By fighting free-radical oxygen that damages in the upper dermis, it helps skin remain healthy and radiant. Squalene is commercially produced from olive, palm, wheat-germ, amaranth, rice bran and shark liver oil.

Evening Primrose Oil is extracted from the seeds of the evening primrose plant (*Oenothera biennis*) that grows in parts of North America, Europe and Asia. Native Americans and early European colonists have used it for skin health for centuries.

Vitamin A promotes skin elasticity, and reduces the appearance of wrinkles and fine lines. Due to its anti-oxidant properties, it is also a great anti-ageing ingredient, and helps promote a softer, smoother skin. However, Vitamin A is easily lost when exposed to ultra violet light.

Vitamin C is basic in keeping the skin healthy. As an antioxidant, Vitamin C opposes the production of free radicals that damage skin and make it lose its luster, but it is also a critical component for the production of collagen, an essential skin protein. Helps protect the Vitamin A content of the skin.

Vitamin E is another powerful antioxidant that fights free radicals. Vitamins C and E make each other more effective, and protect the Vitamin A content of the skin.

Grapefruit Seed Extract contains healthful flavonoids, along with Vitamins C and E, which act as natural preservatives.

Z Whitener is another new natural ingredient that helps lighten the appearance of your skin without side effects.

Other Ingredients

Carbomer, Ethoxydiglycol, Tricaprylin, Glyceryl Stearate, PEG-100 Stearate, Aminomethyl Propanol, Dimethicone, Liposome, Imidazolidinyl Urea, Water.

Suggested Use: Place a pea-sized dot on fingertip and massage gently into affected or discolored areas; or as recommended by your skin care professional. Avoid eye area

Caution: If you are pregnant, nursing or currently taking any medication, consult with a physician prior to use. Do not exceed suggested use.

Storage: Store this product in a cool dry place below 30°C (86°F). Keep out of reach of children.
